GLOBAL Secures \$2.6M Contract Extension in Support of Liberia Security Sector Reform

DUBAI, 1st October, 2009 – [Global Strategies Group](#) (GLOBAL), one of the world's leading providers of defence, development and corporate risk management services, was awarded a \$2.6M contract extension to deliver a range of security services at Edward Binyah Kesselly (EBK) Military Base in support of its client, PAE Government Services Inc. (PAE), who is engaged in Peacekeeping, Capacity Enhancement and Surveillance efforts in Africa. Under contract to the U.S. Department of State, PAE provides logistical, training, and operations & maintenance services to the Armed Forces of Liberia as part of the Liberia Security Sector Reform (SSR) program.

As part of the Africa peacekeeping initiative, Liberia SSR supports the U.S. Department of State's overall goals of creating peace and stability throughout Africa. Through the Liberia SSR program, PAE trains and mentors Liberian soldiers in civil construction, military planning and tactics, and peacekeeping techniques – areas critical to establishing a self-sufficient, professional army.

Dedicated to empowering clients to achieve their goals in high-risk situations, GLOBAL will provide a guard force of armed and unarmed personnel throughout the EBK Military Base. The GLOBAL team will oversee and perform security operations including Main Gate security, personal and vehicle identification and search, perimeter patrol, personal security detail (PSD), and armed escort security (AES).

Since 2006 GLOBAL has had a presence in Liberia, employing the full breadth of their expertise and capabilities to strengthen national security and enable critical programmes, such as the Liberia SSR initiative to realise success.

PAE, a wholly-owned subsidiary of Lockheed Martin, is a global company specialising in expeditionary construction, logistics, operations and maintenance, and training. Headquartered in Bethesda, Md., Lockheed Martin is a global security company principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.
